

FACILITIES BUILDING

New-build series of 4 linked building providing office, restaurant, bar, changing and kitchen facilities for a new marina development masterplanned by Stewart Associates.

PORTAVADIE MARINA, ARGYLL

Designed for maximum views, low energy use and maintenance with class-leading accommodation.

APARTMENTS

New-build series of luxury letting apartments designed to compliment the existing Facilities Building with the design masterplan.

T. 01475 670033
F. 01475 673103
info@stewart-associates.com

Designed for maximum views, flexible use of space, low energy and maintenance with heat-pump and solar panel technology integrated into the design. Rated as 5-star by Scottish Tourism.

LODGES

New-build staff and visitor accommodation designed to form the landward "gateway" to Portavadie Marina. The building is a mix of single 2 and 3 storey construction with similar design themes to the Facilities and Apartment buildings.

Designed for flexible numbers of visitors to appeal to a wide range of outward bound tourists. Space and water heating provided by a central bio-mass boiler plant with fuel supplied from the client group's forest resource.
