

STEWART ASSOCIATES

Architects & Development Consultants

Quality Policy Statement

Stewart Associates is committed to providing a high quality design service that is consistently to a standard that meets or exceeds Client expectations. To assist in our aims we operate an integrated Quality and Environmental Management System (QEMS) that has been designed to meet the requirements of BS EN ISO9001: 2008 and BS EN ISO14001: 2004.

A comprehensive internal audit programme ensures the QEMS is subject to regular auditing and review to verify its effectiveness and development which are measured against Key Performance Indicators and provides a framework for setting and reviewing Practice objectives and implementing corrective and preventive measures where necessary. This gives our Clients confidence that their individual requirements will be fully met to their satisfaction.

The Senior Management Team and all members of staff are committed to the continual improvement of the QEMS as well as the effectiveness and efficiency of service provided.
